1. Summary of the activities since 1 July 2017

Aedifica's investment strategy is mainly built on the strength of the demographic trend toward population ageing in Europe. This strategy has contributed to the market's confidence in Aedifica, as demonstrated by the increasing stock price, which rose from €76.37 (30 June 2017) to €79.82 (29 September 2017).

The quarter under review was marked by the announcement of two major co-operation agreements – one for the construction of seventeen rest homes in Germany and another for the construction of two senior housing sites in The Netherlands – representing an overall investment of approx. €240 million. Moreover, the Group carried out a series of new investments, exclusively in the senior housing segment, in Belgium (a rest home located in West Flanders) as well as in Germany (a rest home situated in the State of Saxony-Anhalt) and The Netherlands (care residences in the Provinces of Gelderland, Utrecht, South Holland and Limburg). A total of seven sites entered into the Group's portfolio. In addition, a new care residence (in the Province of Overijssel in The Netherlands) and a renovated assisted-living apartment building (in the Province of Limburg in Belgium) entered into use during this first quarter.

During the first quarter of 2017/2018, the fair value of marketable investment properties including assets classified as held for sale* increased by €57 million (i.e. +4 %), reaching €1,584 million by 30 September 2017 (€1,528 million at the beginning of the period).

After 30 September 2017, Aedifica announced yet another acquisition of a care residence in The Netherlands (in the Province of Utrecht).

The acquisitions carried out or announced by the Group since the €219 million capital increase of 28 March 2017 are listed in Appendix I; they surpass the €400 million mark.

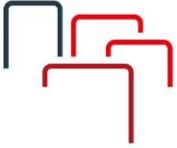

In addition to its investment activities, Aedifica strives to maintain optimal management of its real estate portfolio. The Company's portfolio provides for excellent rental incomes (supported by the Company's occupancy rates: 98.6 % occupancy, excluding the furnished apartments, which stand at 73.9 % occupancy), which amount to €21.8 million (an increase of 26 %) for the quarter ended 30 September 2017 (€17.4 million one year earlier).

At the end of the first quarter, Aedifica is ahead of the quarterly budget (in terms of both rental income and EPRA Earnings*) as derived from the annual outlook for the 2017/2018 financial year presented in the 2016/2017 Annual Financial Report (section 11.2 of the Consolidated Board of Directors' Report).

Aedifica's consolidated debt-to-assets ratio amounts to 42.0 % as of 30 September 2017 (40.8 % as of 30 June 2017).

Before even considering new opportunities in Belgium, Germany and The Netherlands, the Company's future growth is ensured given its existing commitments to acquire, renovate, extend, and/or redevelop multiple sites. These projects fit perfectly with Aedifica's strategy which, in the senior housing segment, aims to improve existing sites and to develop new projects in partnership with tenants/operators. The pipeline as of 30 September 2017 for these types of projects represents a total committed budget of approx. €350 million, to be invested over a four-year period (see Appendix II). This strategy allows Aedifica to maintain a portfolio of high-quality buildings that generate attractive net yields.

Finally, note that new investment opportunities are currently under consideration. These potential investments are fully aligned with the Company's investment strategy, which is highly favoured by the market.

2.1.1. Acquisition of a rest home in Ostend (Province of West Flanders)

On 8 September 2017, Aedifica announced the acquisition of a rest home in Belgium, pursuant to a previously established agreement (see half year financial report of 23 February 2016). The De Duinpieper rest home is located in the “Vuurtorenwijk” neighbourhood in Ostend (70,000 inhabitants, Province of West Flanders). The building, designed by famous Belgian architect Lucien Kroll, was built in 1989. The site will be renovated into a modern residential care facility intended for seniors requiring continuous care, and extension works will be carried out for the construction of a new wing. Upon completion of the works, anticipated for summer 2019, the rest home will be able to welcome 115 residents. The site will remain operational during the works. Aedifica SA and its subsidiary Aedifica Invest SA have acquired 100 % of the shares of Dujofin BVBA, owner of the plot of land and the building. The contractual value of the site amounts to approx. €10 million. Aedifica has budgeted approx. €2 million for renovation and extension works. Aedifica’s total investment (including the works) will amount to approx. €12 million. The operation was financed using Aedifica’s credit facilities. The care residence will be operated by Fipromat SPRL, an entity of the Dorian group, a private player in the Belgian senior care market. The lease established for this site is an irrevocable 27-year triple net long lease. The initial gross yield amounts to approx. 5.5 %.

The purchase price was paid and Aedifica SA/NV has acquired the property and full use of the building. The operation was financed using Aedifica’s credit facilities. The Seniorenheim am Dom rest home benefits from an excellent location in the historic centre of Halberstadt (40,000 inhabitants, State of Saxony-Anhalt). 2.2.2. Co-operation agreement for the construction of seventeen rest homes in Germany

On 17 August 2017, Aedifica announced the signing of a co-operation agreement with Specht Gruppe for the construction of seventeen rest homes in Germany. The rest homes (to be constructed) will be located in urban and rural areas in several states of northern Germany (Lower Saxony, North Rhine-Westphalia, Schleswig-Holstein, Mecklenburg-Vorpommern and Bremen). These residential care facilities will be designed for seniors requiring continuous care (“Pflegeheim”) and will consist primarily of single rooms. In addition to the standard single rooms, larger rooms (suites) will be included to cater to the high-end market segment. The buildings will also house complementary services, such as day centres for seniors and, in some cases, childcare services or a pharmacy. One of the buildings will contain some apartments designed for independent living (with care services available on demand). Upon completion of all buildings, this portfolio will have a total capacity of approx. 1,500 units. The rest homes will generally be located on care campuses, which also contain buildings offering independent living apartments for seniors (with care services available on demand). With only one exception, these apartments will be constructed in separate buildings. Aedifica will acquire the plots of land through the takeover of companies owned by Specht Gruppe (in principle after receipt of the development permits) during the next few months and, as is currently expected, by the end of the second quarter of 2018 at the latest. After each takeover, construction of the new buildings will begin. Therefore, an agreement will be signed with Residenz Baugesellschaft, an entity of Specht Gruppe, which will carry out the construction of the new buildings for a fixed amount and which guarantees its timely completion. Assuming all development permits will be received, Aedifica’s total investment will ultimately amount to approx. €200 million. The first buildings are expected to be completed in late 2018 or early 2019. The operation will be financed using Aedifica’s credit facilities. All sites will be rented out to Residenz Management GmbH, an entity of Specht Gruppe, and will be operated by high quality operators. The sites will be rented out on the basis of irrevocable 30-year long leases and, in addition, will benefit from a triple net warranty of limited duration which will cover the buildings’ maintenance. The initial yields amount to approx. 5.5 %.

2.2.3. Acquisition of a senior housing site in Dessau-Rosslau (State of Saxony-Anhalt)

On 11 September 2017, Aedifica announced an agreement for the acquisition of a senior housing site in Germany. Seniorenresidenz an den Kienfichten is located near the centre of Dessau-Rosslau (83,000 inhabitants, State of Saxony-Anhalt) within a large private park. The site comprises a villa which was completely renovated in 2009, and a new building that was completed at the beginning of the year. The site has a capacity of 88 units, including 62 units serving seniors requiring continuous care (“Pflegeheim”, situated in the new building) and 26 units serving seniors opting to live independently with access to care services on demand (“betreutes Wohnen”, situated in the villa). The agreement for the acquisition of this site by Aedifica SA/NV is subject to the usual outstanding conditions in Germany, which are mainly of administrative nature and which should be fulfilled during the fall of 2017. The purchase price will be paid and the property and full use of the building will automatically be acquired at that time. The contractual value amounts to approx. €6 million. The operation will be financed using Aedifica’s credit facilities. The site is operated by Cosiq GmbH, a private German player on the senior care market. The lease established for the site is an irrevocable 25-year double net long lease. The initial gross yield amounts to approx. 7 %.

3. Turnover of the quarter ended 30 September 2017

The consolidated turnover (**consolidated rental income**) for the first quarter of the current financial year amounts to €21.8 million, i.e. +26 % compared to the same period of the previous financial year. This is above the quarterly budget as derived from the annual outlook for the 2017/2018 financial year presented in the 2016/2017 Annual Financial Report, owing to the timing of the acquisitions as compared to what was budgeted, but also due to the good performance registered on a like-for-like basis*.

The consolidated rental income by segment is presented in the following table:

Consolidated rental income (x €1,000)	30 September 2017	30 September 2016	Var. (%) on a like-for-like basis*	Var. (%)
Senior housing	18,177	13,579	+1.3%	+33.9%
Apartment buildings	2,485	2,746	+1.4%	-9.5%
Hotels and other	1,235	1,075	-0.7%	+14.9%
Inter-segment	-49	-49		
Total	21,848	17,351	+1.2%	+25.9%

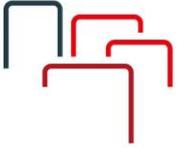

The evolution of rental income in the senior housing segment (+33.9 % as compared to the same period of the previous financial year overall or +1.3 % on a like-for-like basis*) demonstrates the relevance of Aedifica's investment strategy in this segment which generates 83 % of the Company's turnover.

Rental income of apartment buildings has decreased due to the disposal of a building (Tervueren 13 in June 2017) and the transfer (on 1 July 2017) of the Ring building to the "hotels and others" segment. On a like-for-like basis*, rental income of the apartment buildings has increased and is slightly above budget.

The rental incomes of the hotels and other building types are analysed as follows:

- rental income of the hotels has decreased slightly, in line with what was previously stated¹. It remains on par with budgeted levels;
- with respect to the other building types, rental income has increased (considering the abovementioned transfer of the Ring building and notwithstanding the disposal of the Royale 35 building in March 2017).

 - 45 % in Flanders;
 - 20 % in Brussels;
 - 10 % in Wallonia;
- 14 % in Germany;
- 11 % in The Netherlands.

The **occupancy rate² of the total unfurnished portion of the portfolio** (representing 95 % of the fair value of marketable investment properties including assets classified as held for sale*) amounts to 98.6 % as of 30 September 2017. This is comparable to the record level reached at the end of the previous financial year (30 June 2017: 98.7 %).

² The occupancy rate is calculated as follows:

- For the total portfolio (excluding the furnished apartments): (contractual rents + guaranteed income) / (contractual rents + estimated rental value (ERV) on vacant areas of the property portfolio). We note that this occupancy rate includes the investment properties for which units are in renovation and hence temporarily not rentable.
- For the furnished apartments: % rented days during the financial year. This occupancy rate can thus not be compared to the one calculated on the rest of the portfolio, as the methodology is specific to this segment.

PRESS RELEASE **Regulated information**

14 November 2017 – After closing of markets
Under embargo until 17:40 CET

The **occupancy rate of the furnished portion of the portfolio** (representing only 5 % of the fair value of marketable investment properties) reached 73.9 % for the first quarter of the current financial year. This is an increase compared to the total occupancy rate of the 2016/2017 financial year (73.5 %) and the occupancy rate realised during the first quarter of the previous financial year (69.4 %).

The **overall occupancy rate**³ of the total portfolio reached 99 % as of 30 September 2017.

The **weighted average lease term** for all buildings in the Company's portfolio is 20 years; this is unchanged as compared to 30 June 2017. This impressive aggregate performance is explained by the large proportion of long-term contracts (such as long leases) in the Company's portfolio.

³ Rate calculated according to the EPRA methodology.

° The amounts related to the furnished apartments correspond to the annualised rental income excl. VAT.

°° Based on the fair value (re-assessed every 3 months, increased with the goodwill and the furniture for the furnished apartments). In the senior housing segment, the gross yield and the net yield are generally equal ("triple net" contracts), with the operating charges, the maintenance costs and the rents on empty spaces related to the operations generally being, in Belgium and in The Netherlands, supported by the operator (the same applies for hotel lease contracts). In Germany, the net yield is generally lower than the gross yield, with certain charges remaining at the responsibility of the owner, such as the repair and maintenance of the roof, structure and facades of the building ("double net" contracts).

Excluding the non-monetary impact (that is to say, non-cash) of the changes in fair value of hedging instruments⁴, the net asset value per share based on the fair value of investment properties is €52.04 as of 30 September 2017 (30 June 2017: €51.30 per share).

7. Outlook

The Board of Directors continues to pay close attention to the shifting economic and financial context and the associated effects on the Group's activities.

In the current economic climate, Aedifica's **key strengths** include the following:

- Its strategic focus on health care real estate and its expansion in Europe, which allows the Company to adapt to shifting market opportunities and economic conditions, in the context of an ageing population.
- Thanks to its investments in senior housing, Aedifica benefits from indexed long-term rental incomes, which generate high net yields. The weighted average lease term on the total of its leases (20 years) provides a very good view toward the majority of its future income streams over the long term.
- External financing of the real estate portfolio (including commitments for development projects) is assured, with credit facilities in place totalling €910 million and none of these are reaching maturity during the current financial year. At present, drawings on these credit facilities are fully covered by hedging instruments.
- Aedifica is in a good solvency position, with a consolidated debt-to-assets ratio of 42.0 % as of 30 September 2017 (well below the maximum legal limit of 65 % imposed for Belgian REITs and the contractual maximum of 60 % imposed by way of bank covenants). This is further supported by the stable fair values that the Company's real estate portfolio has demonstrated for many years. Aedifica enjoys a balance sheet structure that permits executing development projects and renovations (commitments representing approximately €350 million as of 30 September 2017, of which €333 million are still to be realised within a four-year period - see Appendix II) and to realise new investments.

⁴ The effect of the changes in fair value of hedging instruments of -€1.91 per share as of 30 June 2017 is the impact in equity of the fair value of hedging instruments, which is negative for €34 million, mainly booked in the liabilities on the balance sheet.

3. Calculation details of the Alternative Performance Measures (APM for short)

For many years, Aedifica has used Alternative Performance Measures in accordance with ESMA (European Securities and Market Authority) guidelines published on 5 October 2015 in its financial communication. Some of these APM are recommended by the European Public Real Estate Association (EPRA) and others have been defined by the industry or by Aedifica in order to provide readers with a better understanding of its results and performance. The APM used in this interim statement are identified with an asterisk (*). The performance measures which are defined by IFRS standards or by Law are not considered as APM, neither are those which are not based on the consolidated income statement or the balance sheet. In this appendix, the APM are defined, annotated and connected with the most relevant line, total or subtotal of the financial statements.

3.1. Investment properties

Aedifica uses the following performance measures to determine the value of its investment properties; however, these measures are not defined under IFRS. They represent investment properties clustered in different ways to provide the reader with the most relevant information. The definition of these concepts as applied to the Aedifica financial statements may differ from those used in the financial statements of other companies. They are calculated as follows:

(x €1,000)	30/09/2017	30/06/2017
Marketable investment properties	1,579,869	1,523,235
+ Development projects	16,055	17,174

3.2. Rental income on a like-for-like basis*

Aedifica uses the net rental income on a like-for-like basis* to reflect the performance of the investment properties excluding the effect of scope changes; however, this performance measure is not defined under IFRS. It represents rental income excluding the effect of scope changes. The definition of this concept as applied to the Aedifica financial statements may differ from that used in the financial statements of other companies. It is calculated as follows:

(x €1,000)	30/09/2017	30/09/2016
Rental income	21,848	17,351
- Scope changes	-5,684	-1,374
= Rental income on a like-for-like basis*	16,164	15,977

3.3. Equity and net asset value per share

Aedifica uses equity excl. changes in fair value of hedging instruments* to reflect equity before non-cash effects of the revaluation of hedging instruments; however, this performance measure is not defined under IFRS. It represents the line “equity attributable to owners of the parent” without cumulated non-cash effects of the revaluation of hedging instruments. The definition of this concept as applied to the Aedifica financial statements may differ from that used in the financial statements of other companies. It is calculated as follows:

(x €1,000)	30/09/2017	30/06/2017
Equity attributable to owners of the parent	901,209	888,039
- Effect of the distribution of the dividend 2016/2017	0	0
- Effect of the changes in fair value of hedging instruments	34,295	34,055
Equity excl. changes in fair value of hedging instruments*	935,504	922,094

Aedifica uses net asset value per share excl. changes in fair value of hedging instruments* to reflect equity per share before the non-cash effect of the revaluation of hedging instruments; however, this performance measure is not defined under IFRS. It represents the line “equity attributable to owners of the parent” without cumulated non-cash effects of the revaluation of hedging instruments, divided by the number of shares outstanding (after deduction of treasury shares) at the closing date. The definition of this concept as applied to the Aedifica financial statements may differ from that used in the financial statements of other companies. It is calculated by dividing equity excl. changes in fair value of hedging instruments* by the number of shares outstanding (after deduction of treasury shares).
